Company profile · airgrip.co.in
Jamnagar, Gujarat, India

Brass components, made to your drawing

AirGrip makes brass parts to customer drawings in Jamnagar, India: turned components, forgings, fittings, moulding inserts, electrical parts, special fasteners and stampings, plus a standard range of brass cable glands and accessories. Founded in 1988 by Ketan Shah.

FOUNDED	QUALITY SYSTEM	EXPORTS	MACHINES
1988	**ISO 9001:2015**	**40+ countries**	**66**
Jamnagar, Gujarat	certified	about 25 % of output	team of 50+ people

What we make

TURNED PARTS	CNC and cam-automat turned, Ø5–100 mm, ±0.05 mm; ISO 2768-m unless the drawing states otherwise
FORGINGS	Hot-forged, then machined, 25 g – 1.0 kg
TO DRAWING	Fittings, moulding inserts, terminal blocks and neutral links, special fasteners, brass, copper and steel stampings
CABLE GLANDS	Clamping-jaw and strain-relief glands, pressure screws, lock nuts, adapters, stop plugs, earth tags; PG 7–48 and M12–M80; EPDM seal, IP54
VOLUMES	From a few thousand pieces to millions a year

How we make it

MATERIAL	Rod bought from approved mills; CW614N and CW617N as standard; low-lead, lead-free and DZR grades on request
MACHINE PARK	12 CNC lathes, 20 cam automats, 21 special-purpose machines built in-house, 10 drilling machines, 3 presses
PROCESSES	Hot forging, turning, drilling, threading, milling, stamping, plating, sub-assembly
THREADS	Metric, PG, BSP and BSPT, NPT, UNC/UNF, BA, BSW; special threads to drawing
PLATING	Nickel, tin, zinc in our plant; silver or chrome on request

Industries we supply

Electrical and switchgear · automotive · plumbing and sanitary · HVAC and refrigeration · hydraulics and pneumatics · plastic moulding and pipes

Quality and documents

DOCUMENT OR PRACTICE	WHEN
EN 10204 3.1 mill certificate	With every batch
Certificate of conformity	With every batch
Final inspection report	With every batch (sample-based final inspection)
Control plan and first-off approval	Every order: control plan at contract review; first part fully measured and approved before the run
Traceability	The rod's heat number links every record to the carton label
PPAP Level 3	On request (ISO 9001:2015; not IATF 16949)
Calibration	Yearly, by an NABL-accredited lab
Complaints	8D report within 5 days
REACH and RoHS	Leaded brass (CW614N) contains lead above 0.1 %: REACH Article 33 statement on request. Leaded brass is covered by RoHS Annex III exemption 6(c), currently valid until 30 June 2027 (Delegated Directive (EU) 2025/2364); lead-free CW724R on request

Ordering

QUOTE	Reply within two working days (Sat–Thu, IST): price, MOQ and lead time, or our questions on the drawing
NDA	We sign your NDA before you send drawings
SAMPLES	Free, typically in 2–3 weeks, with an inspection report; you pay the courier
PRODUCTION	4–6 weeks typical after sample approval; made to order
MOQ	Depends on the part and process; stated in the quote
PAYMENT	Agreed per order in the quote, including the currency

Delivery

INDIA	GST invoice; road transport; MSME (Udyam) registered. GST, PAN, MSME certificate and bank details sent on request for vendor registration
EXPORT	EXW Jamnagar, FOB, CFR, CIF via Mundra or Nhava Sheva (JNPT); air freight for samples
SHIPPING DOCUMENTS	Commercial invoice and packing list
PACKING	Cartons with traceable labels
